1. $\square$ 안에 알맞은 수를 차례대로 써 넣은 것을 고르시오.

$3.08 - 3.09 - \square - \square - 3.12 - 3.13$

① 3.1, 3.11 ② 3.11, 3.21 ③ 3.01, 3.02

④ 3.17, 3.18 ⑤ 3.10, 3.14

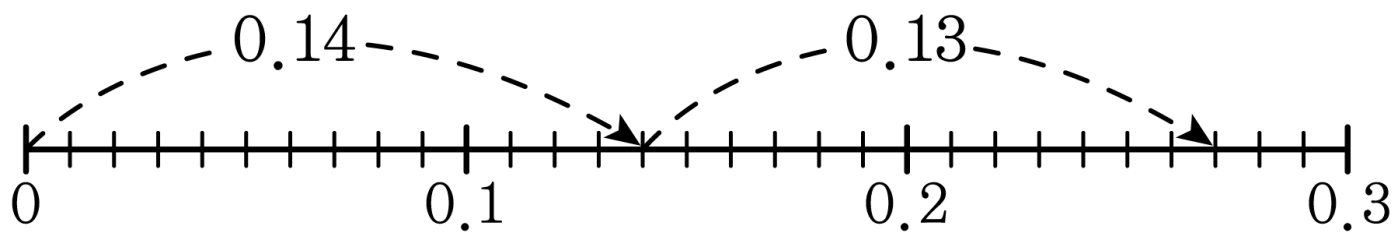
해설

0.01 씩 뛰어 세기를 합니다.

첫번째 $\square = 3.09 + 0.01 = 3.1$

두번째 $\square = 3.1 + 0.01 = 3.11$

2. 다음 수직선을 보고, 알맞은 덧셈 식을 고르시오.



① $0.1 + 0.12 = 0.22$

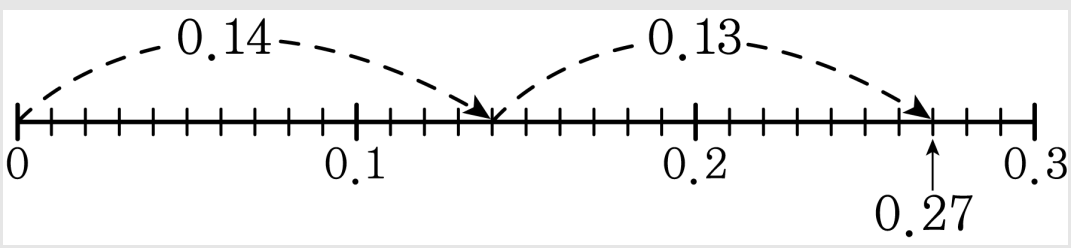
② $0.11 + 0.12 = 0.23$

③ $0.13 + 0.12 = 0.25$

④ $0.14 + 0.12 = 0.26$

⑤ $0.14 + 0.13 = 0.27$

해설



$0.14 + 0.13 = 0.27$
